Robert Frost Middle School
Parent Portal Information

The Parent Portal feature on Infinite Campus is designed to maximize the amount of information parents can access regarding their child's academic record on a daily basis. Your login and password information does not change from year to year, or school to school. If you do not have your login and/or password information, please contact the Instructional Technology department at parentportal@deerparkschools.org or (631) 274-4380.

The Parent Portal will be the only way to access your child's progress reports and report cards. These are not mailed home.

This year, students will have access to their own Infinite Campus Student Portal accounts. Each student will have access to view his/her attendance, schedule, grades, and report cards. The student's username is his/her district email address and the temporary password is the child's student ID number and the MMDDYY date of birth.

For example: Jane Smith
- Username would be jansmith@deerparkschools.org (first 3 letters of the first name and the last name)
- Password would be 12345021407 (first 5 digits are the ID number, then the date in MMDDYY. Jane Smith's birthday is February 14, 2007)

You will be asked to create a NEW password once you log-in, verify it, enter the old password in the "current password" field, and click SAVE. If the password is a strong password, the box will turn green at 100%.

IMPORTANT TIPS TO KEEP IN MIND:
- Your Infinite Campus password must be at least 8 characters in length and must contain at least one number.
- Avoid sequential numbers, repeated characters, or adjacent characters on your keyboard (ex: abc12345, 2222222t, qwerty123)
- Avoid passwords tied to personal information could be guessed or easily discovered (name, birthday, phone number, pet's name, etc.)
- DO NOT share your password with anyone other than your parents. No one should be able to access your personal information.

Students with questions/problems creating your account can email studentportal@deerparkschools.org from their district provided email account. We hope access to this tool with be of a great benefit for students to stay informed about their own progress.
